Decker Steel is a wholesale distributor of sheet steel: galvanized, hot rolled, cold rolled, stainless, aluminum, copper, and other prime domestic sheet steel products to service the contractor.

We manufacture prime quality, union-made sheet metal pipe ducts and fittings for residential and commercial construction. Our products are quality-made at competitive market prices.

We also represent and inventory a large variety of manufacturers of sheet metal products for HVAC customers. With Decker Steel's large inventory, our customers are able to pick up a complete order. We also provide delivery with our own trucks to our customers in the local area. Our large inventory provides one-stop shopping for all your sheet metal requirements.

Our knowledgeable sales staff is available to assist you in any way possible. In addition, our manufacturers provide ongoing technical support so that we have the latest solutions to your sheet metal needs.

### SHEET METAL, TOOLS AND SUPPLIES

- |                              |                                  |
